Summary

Motivated and detail-oriented Computer Science student with a passion for frontend web development and IoT. Proficient in building responsive UIs with HTML, CSS, JavaScript, and Bootstrap. Experienced with ESP32 and RFID systems. Successfully completed real-world projects including an Automated Attendance System and a Crowdfunding platform built with the help of Large Language Models (LLMs). Eager to apply and enhance skills as a Web Developer Intern.

Projects

Automated Attendance System with ESP32 and RFID
- Developed an automated RFID-based attendance tracking system using ESP32.
- Created a web interface to display the last 5 scans with associated student names.
- Included a Faculty Login System with batch/course/section selection and real-time tracking.

CGPA Calculator
- Built a CGPA calculator using HTML, CSS, and JavaScript.
- Live Link: https://gmallikarjunreddy.github.io/CGPA-GPA-CALCULATOR/

Crowdfunding Platform
- Developed a crowdfunding platform using React and Bootstrap.
- Built with assistance from Large Language Models (LLMs) for backend and frontend code generation.
- Code Link: gmallikarjunreddy/fundaroo-collective

Skills Summary

Programming Languages: Python (Beginner), Java (Beginner), C
Web Development: HTML, CSS, JavaScript (Basics), Bootstrap
Database: MySQL (Primary)
IoT & Embedded Systems: Arduino, ESP32, RFID

EDUCATION

ICFAI Foundation for Higher Education	**2023–2027**
B. Tech in Computer Science and Engineering,	CGPA: 8.52
Narayana Junior Kothapet, Hyderabad	**2021 – 2023**
Intermediate Education, MPC	952/1000
Telangana State Model School, Nawabpet	**2021**
Secondary School Certificate (SSC)	GPA: 10/10
